Baptist Health Care- Patient Financial Services

POLICIES/PROCEDURES

Subject: Discount Policy

PURPOSE

The purpose of offering patient discounts is to encourage rapid payment of amounts owed to reduce Baptist Health Care's (BHC) overall cost of collecting self-pay (no insurance and balance after insurance) balances. Additionally, patient discounts provide uninsured patients with account reductions that are equitable with pre-negotiated managed care payor rates.

POLICY

BHC provides several discount options for a variety of patient financial needs. The Financial Assistance Discount, as further described below, may not be combined with any other discount. The Automatic Self-Pay Discount may be combined, if applicable, with a Prompt Pay or a Settlement Discount. Covered Services include those within BHC facilities not to include physician charges for services rendered.

1. **Automatic Self-Pay Discount** - Patients with no insurance to help cover medical expenses will automatically be given a 30 percent discount on charges for hospital based medical services. The amount of this discount is similar to rates negotiated between BHC and managed care payers. This discount is applied automatically at the time of billing.

   b) This discount is not available if some form of insurance or other third-party coverage may be responsible for paying for the care provided, e.g., prisoners, third-party liability situations, workers’ compensation, etc.
