# **Local and National Resources for Health Information**

The Faith Health Network (FHN) is a program of Baptist Health Care. Guided by our Mission of helping people throughout life's journey, the FHN combines the many resources of the health care community with the strength of local congregations to promote the delivery of high-quality health care. FHN is meant to build a bridge between Baptist and the people within our communities by developing personal relationships with local congregations through the use of congregational volunteers (liaisons) and dedicated health care professionals (navigators). The goal is to ensure that our members enter the system at the right place, at the right time, for the right reason, and understand that they are not alone.

We hope this resource guide helps you find what you need. If you need more help or are uncertain of the right help for you, please call the Faith Health Network at 850.469.7729(PRAY) to ask for assistance. We hope to help you during your life's journey!
